- Upcoming instructor-led training sessions, including e-seminar presentations and hands-on virtual classes
- Recorded presentations
- Step-by-step instruction
- Additional information on SciFinder features
- e-Learning tutorials
- Videos

FOR NEW SCIFINDER SEARCHERS

Introductory tutorials

Interactive tutorials give a 15-minute overview of how to find the scientific information you need with SciFinder. They will help you become familiar with the SciFinder interface, functionality and the order in which tasks are typically performed. The Introduction to Reference Searching, Introduction to Substance Searching, and Introduction to Reaction Searching are available at www.cas.org.

SciFinder Virtual Classes

Learn the fundamentals of reference, substance, and reaction searching with SciFinder Virtual Classes. SciFinder experts guide you through fundamental search concepts and hands-on exercises using CAS' virtual PCs. To register for these one-hour sessions, go to casevents.webex.com and click the Training Center tab.

e-Learning curricula

e-Learning curricula are sets of interactive tutorials that give step-by-step instruction on performing various search-related tasks. Taking them in order will help you build your understanding of how to search and work with your search results.

FOR EXPERIENCED SCIFINDER SEARCHERS

In-product Help

SciFinder in-product Help messages give step-by-step instructions and related information on SciFinder features. Click the “i” next to the feature to display the Help message, or use the link in the upper right of the main SciFinder window.

e-Seminars

Attend live online sessions when new features are introduced or view recordings of past events in which search experts discuss various SciFinder topics. For the list of recorded sessions or to register for upcoming events, go to casevents.webex.com and click the Event Center tab.
